Desktop display stand

Fictional specification / revision 1.0 / 27 October 2026

01 Scope

This invented exhibit stand holds a printed card on a desk.

This document is a translation test, not a real product manual.

02 Dimensions and parts

Parameter	Value	Inspection note
Base width	120 mm	Measure across the base
Slot width	3.0 ± 0.2 mm	Check before inserting card
Panel height	180 mm	Exclude the base
Support clips	2	Both clips must be present

03 Assembly checks

1. Place the base on a level desk.
2. Insert the printed card without bending it.
3. Do not force a card wider than the slot.
4. Do not remove either support clip while the card is installed.

04 Review before reuse

Compare every number, unit, table row and negative instruction.

A readable translation still needs review by a qualified reader.
